Re: Apache Junction High School

Larry,

Thank you for giving us the opportunity to submit our proposal for the roofing work presently being planned at Apache Junction High School. We propose for the following scope of work to be performed:

- Tear off existing standing seam metal wall panels, drip edge, trim and felt and dispose of properly
- Apply a Mat-40 high temp self-adhered underlayment by Bitec and secure properly
- Install a new 24 gauge Terra Cotta Kynar coated steel 1" Tee standing seam panel by Firestone per manufacturers specifications
- Install a new 24 gauge Terra Cotta Kynar coated steel fascia/ drip edge and trim around the entire perimeter by Firestone per manufacturers specification
- Supply a roll of dumpster, portable restroom and man lift for duration of project
- Clean and remove all roof related debris from premises
- Coordinate with school district to perform work during afterhours if necessary

Ramada:	\$3,426.26
Building 1:	\$7,994.58
Building 2:	\$7,994.58
Building 3:	\$7,994.58
Total:	\$27,410.00
Tax:	\$1,763.83
Total:	\$29,173.83

If you should have any questions, please let us know.

Sincerely,

Mark Farrell,
Vice President
